

In the garden

With a beautiful view, the lush meadows around the house and our cozy terraces, the Casa Rondinella offers a relaxing and “back to nature” holiday experience. A total of three terraces guarantee for the perfect spot throughout the day. Large trees produce natural shade and ensure for the perfect climate even during the height of summer. On one of the terraces, you will find a brick-built pizza oven. There is also a large communal swimming pool (7x14 m) only a few steps above the Casa Rondinella, which belongs to the house. Our lounge chairs and sun umbrella (which can be found at the house) can be used for the pool area as well.

Casa Rondinella is a part of an entire ensemble of renovated stone cottages. At the highest point of the area, there is a charming little chapel. The spacious grounds with an old tree population invite you to take a walk and to linger for a while. You will constantly find breathtaking views of the mountain sides around Vio and the preserved nature of the well-known Valerina National Park. By the way: due to its special location and structure, Vio has been declared as a „Centro Storico“ - a historical area. Discover this area, the natural landscape and its typical medieval cities during hikes or bike trips.
